"the gini coefficient of the bitcoin economy is ghastly": well that actually makes zero sense

if you purchase the shares of a company you become fully responsible for that company including any liabilities that might arise from actions undertaken in the past by the previous owner

with digital, the lcd screen will tell you if you got the shot and whether it's properly exposed (check and trust the histogram)

what are pickup lines during the early stage of these accomplish nothing

of the more unusual defence mechanisms used by some to help drive down the cost of rural crime which
